MEMORANDUM FOR THE CHAIRMAN, DCI SECURITY COMMITTEE

SUBJECT: Nomination for Chairman, Computer Security Subcommittee

1. (U) The Defense Intelligence Agency takes pleasure in nominating Mr. Len T. Busic for the chairmanship of the SECOM's Computer Security Subcommittee (CSS).
2. (C) Mr. Busic is a senior level staff officer in DIA's systems engineering office and has been the DIA representative to the CSS since January 1973. He has been associated with US intelligence for the past 18 years and has had a widely diversified career. Highlights of his service include duties as a case officer in Europe and the Far East, as a desk officer on the Army Staff, as a senior intelligence analyst at several military commands overseas, and for the last eight years as DIA's principal staff officer for computer security policy. He is the author of DIA Manual 50-4, "Security of Compartmented Computer Operations", which is the basic DoD (less NSA) security policy for processing sensitive compartmented information in ADP systems and networks.
3. (U) In my view this highly talented and versatile officer is eminently qualified to lead our efforts in the important area of computer security. I heartily recommend his selection.

FOR THE DIRECTOR:

Carey P. Joiner, Jr.
CAREY P. JOINER, JR.
COL USA
DIA SECOM Member
